## 7. End Stage Renal Disease

(The Department shall pay the lesser of the provider's usual and customary charges or a maximum rate established by the Department.)

All covered legend drugs associated with this service shall be reimbursed at the lower of the provider's usual and customary charge, or the estimated acquisition cost of the product plus a dispensing fee. Reimbursement for certain multi-source drugs may be subject to federal or state maximum acquisition cost (MAC) limits. Drug prices are to be calculated based on the package size from which the prescription was dispensed as indicated on the NDC number. The only exception are those drugs for which quantity minimums are specified by federal regulations.

8. Case Management Services  
EPSDT

Providers are reimbursed by a flat fee which is a percentage of the provider's average cost, established by the Department.

Effective 4-8-86

9. Case Management Services  
Community Care Organizations

For case management services performed by Community Care Organizations, reimbursement will be made through the per diem rate as established by the department.

Certified providers will be reimbursed upon submission of an appropriate claim form, documenting recipient eligibility and services provided. This is true for all other MA-certified providers. Payments made from Title XIX funds for MA eligible clients will be appropriately matched with state and local funds, and will not duplicate other federal or state payments or match requirements.

Effective 10-1-86

9a. Case Management Services  
Target Group N, Bureau of Milwaukee Child Welfare

This rate applies to clients in Target Group N where the child has been placed in substitute (out-of-home) care within Milwaukee County. The Department's proposal requires no change in the definition of the existing group and the benefits remain the same.

The rate methodology will employ the Random Moment Time Study (RMTS) as a tool in developing the monthly rate per client. The billing process will be established in such a manner as to prevent the processing of duplicate billings for the same client for the same service period. This will be accomplished by installing edits between procedure codes in the MMIS system. The methodology also contains a provision for adjusting the rate to an actual cost basis after completion of the Federal Fiscal Year. The Department's Cost Allocation Plan will be amended to ensure the avoidance of duplicate claiming between TCM and Title IV-E.

Effective 4-1-98
